

PUPPY START RIGHT PROGRAM

Everything you need to raise your puppy right.

PUPPY START RIGHT

www.buildingbondstraining.com

Current research shows that the primary and most important time for puppies to experience our human world is the first three months of life. During this time puppies should be exposed to new people, animals, stimuli, and environments safely and without causing over-stimulation, as per the American Veterinary Society of Animal Behavior.

Incomplete or improper exposures during this important time can increase the risk of behavioral problems later in life including fear, avoidance, and/or aggression. Behavioral problems are the greatest threat to our bond with our dogs. In fact, behavioral problems are the number one cause of relinquishment to shelters.

For this reason, the American Veterinary Society of Animal Behavior believes that it should be the standard of care for puppies to receive such socialization before they are fully vaccinated.

ROCK SOLID FOUNDATIONS

To reach your puppy's full potential we first need to build amazing foundations. We will teach you how to understand your puppy's innermost motivators, how to supercharge play, build an incredible connection and perfect key skills to help you expertly navigate your puppy's first weeks and prevent problem behaviors from arising.

FUN WITH FOCUS

Learn all about building unwavering focus from your puppy. You will teach your pup that looking at you pays off. Through fun games, we will help you teach your puppy how to not just look at you for a quick second but to offer focus around distractions.

CONFIDENCE BOOST

Humans aren't the only ones that feel good when they get a compliment. You will learn how to give your pup an emotional and physical confidence boost so that your puppy can learn and walk with confidence instead of with fear.

DOG EMPOWERMENT

Giving dogs a choice in navigating the world around them can boost their confidence and resiliency when faced with an overwhelming situation. Empowering your dog to move away or move closer to new things can make all the difference.

BUILD SUPER POWERS

Learn how to supercharge your dog's reinforcers and speed up their learning process. Soon your training will take off and you will feel like a superhero!

FUN WITH MANNERS

Transform your playful puppy into an absolute angel by teaching self control and the art of saying please. Invite your guest over and "WOW" them with your amazing puppy who sits for pets without jumping.

TAKING IT ON THE ROAD

Beyond the basics, transformation happens when you learn how to gradually add distractions, distance, and duration to the training. You will learn the skills to level up and down to ensure success, so you can be proud to take him anywhere!

THE SKY IS THE LIMIT

There is no limitation of where you and your furry partner can go from here. Have a dog that hikes well with you, volunteer as a therapy dog, or teach your dog to help you out around the house. Let your imagination go wild, there is no limit.

She is also the administrative assistant for Building Bonds helping clients find the right path to growing their relationships and solving behavior issues with their dogs.

We are educated and certified dog trainers. Our methods are kind and humane. We embrace Fear-Free, and never use fear, pain, or intimidation in our programs. We value training that is easy to follow, consistent, and fun for both dogs and people. We're experienced at solving and preventing the most common behavior problems.

Dear Puppy Parent,

Puppies are precious bundles of joy, but be prepared to clean up messes, get up in the middle of the night, and deal with the barking and chewing issues. Remember, your puppy hasn't learned how to live with your rules yet, so please be kind. We ask you to be patient and take the time to work with your new puppy to establish a routine and reward your puppy for the calm behaviors you like.

And if you do, you will have unconditional love from your beloved friend, for life. We will be here to support you along the way.

love and joy,
